PROFESSIONAL SUMMARY

Security-focused Full-Stack Developer with a logic-first approach to building robust web and mobile applications. Currently bridging the gap between Software Engineering and Cybersecurity by developing cross-platform solutions with built-in secure coding practices. Experienced in managing agile project cycles, designing clean UI architectures, and shipping functional systems using .NET, Flutter, and JavaScript ecosystems.

TECHNICAL SKILLS

- **Languages:** C#, Dart, JavaScript, HTML5, CSS3, Java
- **Frameworks & Libraries:** .NET (ASP.NET Core, MVC), Flutter, React.js, Node.js, Express
- **Databases & Tools:** MongoDB, SQL Server, Firebase, Git, GitHub
- **Core Competencies:** Secure System Design, REST API Integration, CI/CD Deployment, Neu-brutalism UI/UX, Vulnerability Awareness

ENGINEERING PROJECTS

City Guide | *Flutter, Firebase, Dart*

- Engineered a cross-platform mobile application featuring real-time mapping and secure user authentication.
- Integrated Firebase for real-time backend data synchronization and built an admin-moderated review system to ensure data integrity.
- Coordinated a tight four-week development cycle with a team of three, managing shared codebases and version control via GitHub.

Unique Fabrics | *Node.js, React.js, MongoDB*

- Developed a responsive e-commerce storefront with dynamic product routing and a logic-first cart management system.
- Implemented secure user flows for registration and checkout, mitigating basic vulnerabilities.

- Applied clean, desktop-first design principles prioritizing high-quality typography and usability.

Summaro | *React.js, Node.js, Express, MongoDB, Deepgram API*

- Built an AI-powered web app that converts voice notes into structured text summaries.
- Integrated speech-to-text processing with Deepgram API for accurate and consistent outputs.
- Implemented secure API handling and optimized performance with asynchronous processing.

EDUCATION

West Midlands Open University | *BSc in Cybersecurity* | *In Progress* (Exp. 2027)

Aptech Computer Education | *Advanced Diploma in Software Engineering* | *In Progress* (Exp. 2026)
